- Fatal Crash during 1996 involved a school bus, a four door automobile and a motorcycle. The motorcyclist was killed. The only school bus fatalities between 1989 and 2007 were the two students during 1998 in Judith Basin County – I believe.
- The only other school bus fatalities that I remember before that was the Whitefish basketball school bus, which killed 9 during the mid 1980's near West Glacier.
